Best Regards,

PGC will pay literally nothing for this. Why are they paying more for the Alcoa AFL unit which is much smaller
and has far fewer assets? I firmly believe that this is truly a liquidation of Delphi thinly disguised as an "emergence". Worst of all, the
valuable assets of this company are being given away and the only money left for creditors and retirees will be in
the disposition of already closed, nonrevenue producing plants (DPH).

Platinum Equity will now own a company with revenue producing operations that have excellent profit potential
and they will pay literally nothing for this. Why are they paying more for the Alcoa AFL unit which is much smaller
and has far fewer assets? I firmly believe that this is truly a liquidation of Delphi thinly disguised as an "emergence". Worst of all, the
Goverment.

The UAV will continue under the GM umbrella for pensions and benefits, which are being financed by the US
bonuses, from the new owners.
Delphi Senior Executives will retain their positions and potentially receive either generous retention or severance
GM is receiving viable, ongoing revenue producing plants at no cost other than accepting the UAV pension plans.
Geithner.

This plan is structured to only benefit a few Delphi Senior Executives, General Motors, the UAV and Platinum
Equity. It is totally at the expense of Delphi creditors, "Non-UAW" hourly workers, the retired salary employees and
the American taxpayer. Also, it is clear that this whole deal is being brokered by the US Treasury, with Tim
Geithner. As a retired Delphi Salary Employee I strongly object to the recently filed Delphi Modified Plan of Reorganization.
